Copy for "changes" in advertisements MUST be sent in before 2 o'clock on the previous day.

If you have an item of news, please call up The Ledger, Telephone 33, and let us have it.

Mr. James B. Wood conducted services at the County Infirmary yesterday.

The handsomest tree in the Cemetery has fallen before the ax of the vandal.

Mr. Seth Jones of Soldier and Miss Nettie Fultz of Enterprise married at Portsmouth.

The Hunt Site, on which the new Capitol is to be built, has been taken over by the Commonwealth.

There were last week 109 on the payroll at the American Tobacco Company's plant in the Sixth Ward.

John T. Severs of Rome, O., formerly of South Ripley, has been taken to the Athens (O.) Asylum.

Mr. Richard Williams of Charleston, W. Va., attended the funeral of his aunt, Mrs. Nancy C. Chandler, here yesterday.

Saturday Mr. W. H. Lynch received instructions from Lexington to continue as Storekeeper at Pogue's Distillery until further orders.

Ray Taylor, living near Augusta, was gnawing a few days ago when his lower jaws slipped a cog and it took several doctors a pair of hours to get them rebinged.

Captain Louie Schatzmann, the Field Marshal Oyuma of The Ledger Force, is now flanking a number of scattered vesicles at his new home in East Second street.

Mrs. P. Baker of Kansas City has filed a claim to one-fourth of the estate of the late Thomas Lyons of Lexington, who died leaving property worth nearly \$250,000.

The Republicans of Ashland have nominated for Mayor, W. A. Ginn; City Attorney, Simon E. Willis; Police Judge, Osmond F. Byron; Chief of Police, George F. Worthington.

Mr. Gordon Gault and brother will leave today for Reno, Nevada, where they will take a position with Uncle Sam's surveying party. Their many friends wish them success in their new field.

A new line of Gold Crocuses and Bead Neck Chains just received. They are the very best. We have marked them at prices bound make them popular.

P. J. MURPHY, the Jeweler.

Mrs. Elijah Kirk entertained in a delightful and enjoyable manner at her beautiful home near Washington Saturday evening. With finch, music and repartee the hours glided by only too soon for the assembled guests.

Mr. Lewis Pelham caught a catfish yesterday in a pond on his place above the Fairgrounds that weighed 37 pounds. The high river had overflowed the pond and the water receding left the fish in the pool. Mr. Pelham captured it with the aid of a pitchfork and dip net.

Elsewhere in this impression of THE LEDGER will be found the announcement of William Daugherty as a candidate for City Assessor. Mr. Daugherty is competent and worthy and if elected will take special pride in rendering faithful service. He is well known and popular with the masses.

R. A. Carr, proprietor of the Magnolia Flour Mills in East Fourth street, has signed a contract for the erection of an immense steel bin and elevator, capable of storing 30,000 bushels of wheat. The new structure is to replace the wooden affair now doing service and which has been a source of annoyance and expense—having endangered the mill several times by catching fire. Mr. Carr is to be compensated for his enterprise in placing his mill on a footing with the best in the state.

WATSON—REDMOND.

Mr. Austin Watson, aged 21, of this city, and Miss Fanny Frances Redmond, aged 18 years, of Lewis county, were married Saturday night at the home of the bride in the First Ward.

COOPER—FRY.

Mr. J. F. Cooper, aged 23 years, and Miss Bessie A. Fry, aged 17, both of Lewis county, were married last night in the County Clerk's office, Judge Newell officiating.

STRIBLIN—COLLINS.

Mr. L. S. Striblin, aged 28 years, and Miss Lida Collins, aged 28 years, both of Mason county, were married Saturday in the County Clerk's office, Judge C. D. Newell officiating.

Country-Made Maple Syrup.

This is Pure Maple and is very fine. Only a few gallons. Bar to due Currants and Crystallized Ginger. We sell the best Orange Marmalade on the market. When you want anything in Fancy Groceries send us your order.

TELEPHONE No. 43. G. W. GEISEL, OPPOSITE OPERA-HOUSE.

The many friends of Miss Bessie Wells will regret to learn that she is still confined by illness to her home in East Second street.

DEMOCRATIC DILEMMA

The Senatorial Race Will Probably Cut Some Ice

It is a singular circumstance that there should be a factional difference in the Democracy of this county over the pending Senatorial contest in the state. Each faction insists that Hon. Virgil McKnight shall execute bond to vote for its favorite candidate.

Mr. McKnight simply replies that his sole duty in the premises is to vote precisely as an united Democracy directs.

When he receives instruction to that effect from the Democracy of the county he will, in his representative capacity, vote for the candidate officially named in the councils of the party.

He cannot consent to be placed in a position that is certain to endanger the prospects of the candidates named by the recent primary, a result which we are sure will bring no tears to Republican eyes.

HE TOLD THE TRUTH

And Was Compelled to Go to Flemingsburg to Get Married

Mr. William Morgan and Miss Katie Oberding of Covington, accompanied by Captain and Mrs. John T. Farrow, came up on the Courier Saturday for the purpose of being married here.

They visited the County Clerk's office to secure the necessary documents, and when the usual and very important question was asked the young man as to the age of his intended bride he blurted out 15 years, no doubt thinking the Ohio law held good in Kentucky.

Of course that settled matters, and Mr. Wood very reluctantly informed the would-be groom that he could not issue him a license, as the law required the contracting parties to be 21 years old.

It was a great disappointment to all concerned, but they had come to get married, and did not intend to be balked after having traveled so far.

A council of war was held, and being better posted as to the manner of procedure, they secured one of Myall & Dickson's best double teams and lit out for Flemingsburg, where they met with better luck.

After being married they returned to this city and put up at the Kentucky Hotel until the arrival of the Keystone State at 2 o'clock yesterday morning, which they boarded and returned to Cincinnati.

Captain Farrow is a genial, whole-souled fellow and a unique character. For years he commanded big Mississippi river steamers and has seen life in all its phases. He had made arrangements for a good time returning on the Courier, and was very much put out because of the failure of his original plans.

CONSUMPTION

Mainly Caused by Chronic Colds and Hanging-on Coughs.

Mr. John C. Pecor has given a good deal of time to the study of consumption, and finds that comparatively few cases are hereditary.

Mostly all are caused by neglected coughs and colds, which gradually weaken the whole pulmonary system, and before people realize it there is a diseased spot in one lung; spitting blood soon follows and eventually a collapse.

Such an unnecessary end, such a pity, for all could have been so different. We know of hundreds of cases where our wonderful cod liver oil preparation, Vinol, has saved a young and valuable life, which without it would have been sacrificed. We have letters from people who were given up to die, and who positively state that Vinol, and Vinol alone, saved their lives when all else had failed to help them.

Vinol is able to cure hanging-on colds and stubborn coughs, because it is the most perfect preparation of cod liver oil ever compounded; it contains no oil or grease to upset the delicate stomach, yet it does contain every one of the fifty odd medicinal curative elements actually taken from fresh cods' livers, and we freely and publicly state that we will supply all the Vinol we think necessary to cure any case of chronic coughs, hanging-on colds or weak and debilitated conditions of Maysville people, and pay for the medicine ourselves if it fails to give satisfactory results.

How can we express our faith in Vinol more emphatically? JOHN C. PECOR, Druggist.

"JUST ELEGANT!"

Are the universal expressions of the hundreds who have looked at our Unfinished Worsteds, Serge and in Gray Effects Double-Breasted Suits. Such a thing as duplicate orders on spring goods in the month of March never happened us before, but so big is the sale on these suits that our second order on them is now in work for us.

Our White and Fancy Vests, short Topcoats, Cravenette and Mackinette Coats are popular garments. See our new Manhattan Shirts. This spring's patterns are beautiful. The Oxford Shoe will be more popular this season than ever before. You know that the leading manufacturers vie with each other to produce the best. We are agents for the Hanau, Douglas and Walkover Shoes. You cannot make a mistake here.

THE LARGE AMOUNT OF GLOBE STAMPS USED in Maysville has induced the Globe people to put in the finest line of premiums they have yet sent. SEE THEM.

THE HOME STORE. D. HECHINGER & CO.

Use Ray's Cold Cream, 15c and 25c. It is an infrequent occurrence for three burials to take place in one day at the Cemetery, but such was the case yesterday—Mrs. Ann Alexander, Mrs. Nancy C. Chandler and Miss Katie Bierley. The Elk Band at Paris has taken the management of the Opera-house in that city and will push things. Mrs. Brand, mother of Dr. Leslie Brand of this city, who has been quite ill at her home at Cynthia, is improving. This is the season to buy good Monarchical work cheap. See MURRAY & THOMAS. The rumor that the Big Four and Chesapeake and Ohio Railways would soon consolidate their interests is denied by Chairman Ingalls of the Board of Directors of the Big Four Road. In the Trip-to-Europe contest Miss Birdie B. Walsh now has 21,367 votes and Miss Hattie B. Erion of Augusta 19,388. Newton Jewett and Miss Effie Kendall, two of Cynthia's wealthy young people, married the past week in Cincinnati.

AN IMPORTANT SALE OF MUSLIN UNDERWEAR AT HUNT'S THIS WEEK. DON'T MISS IT.

The eighty-sixth anniversary of Oddfellowship in America will be celebrated on Wednesday, April 26th. Mr. John H. Boyd, late of this city, is now engineer on the local C. and O. freight between this city and Russell. Haines Bros. & Co., Virginia contractors, have been awarded the contract for double tracking the C. and O. Road from Russell to Greenup. Almost this entire territory will be made into yards, which will be among the most extensive along the entire system. Joseph Holsinger, aged 68, and Mrs. Luella Shope, aged 35, are among the recent marriages at Greenup. The Norfolk and Western Railway has decided to erect a \$20,000 Y. M. C. A. Building at Portsmouth. Cartmel extracts teeth without pain. The most important thing in today's issue is the list of city property advertised by John Duley. Read over line of it and take advantage of what he offers. Here is an opportunity to make money. Get busy.

Mrs. Thomas Lolley is very ill at her home at Mill Creek.

Mary, the 15-year-old daughter of Mrs. Alice Payne, Matron of the Almshouse, met with a serious and painful accident Saturday. She had washed her head and was sitting in one of the East windows of the new part of the building drying her hair by the warm rays of the sun. In some manner she lost her balance and fell some ten or twelve feet to the ground. She received a bad scalp wound which required six stitches to close, and was seriously hurt about her breast.

It is reported that ROBERT VESKY, the Hero of the Battle of Fishgut, is sailing the seas in search of Admiral Togo. When he finds him, there will be more fun than a million monkeys.

Mr. M. O. PURKISER, formerly of The Felicity (O.) Times, is now City Editor of The Courier-Light, Corsicana, Texas. Congratulations; and that M. O. P. will make a clean sweep.

Russia wants peace on terms that no self-respecting adversary could grant. She refuses to cede any territory and will not consider the question of indemnity—just as though she ever had the slightest claim on any part of Manchuria, from which the brave little Japanese have driven her. But wise men have been known to change their minds, and the Czar may be a wise man.

Strung by the wholesale criticism lately heaped upon the Russian War Office for its unpreparedness and incapacity in providing the Manchurian Army with men, guns and ammunition, the army organ lays bare what has been done since the opening of hostilities, giving the exact figures. From these it appears that up to March 12th the War Office had dispatched 13,087 officers, 761,467 men, 146,408 horses, 1,521 guns and 716,321 tons of ammunition and supplies to the front. Of these vast aggregates, Field Marshal OYAMA's little Japs got away with some 200,000 of the men and most of the other stuff.

The man—or woman either—who fails to read each day's advertisements in THE LEDGER, fails to read the most important news in the paper.

The news comes from Algiers that Secretary HAY has arrived at Gibraltar and that "he is enjoying good health"—just as though anybody would "enjoy" bad health.

When a Country Editor reads of the wonderful ease with which CASSIE CHADWICK collected millions, while he stays awake at nights trying to collect a \$2.87 subscription account, it makes him think of Amsterdam.

Way back yonder when General GRANT was President he urged the annexation of Santo Domingo. He saw that, unless it was controlled by the United States, it was going to be a source of everlasting trouble. But the wise guys in Congress thought otherwise; and if there's been six months of quietude in that island since that time, the Police Reporters never got on. At the recent session of the Senate President ROOSEVELT urged a treaty arrangement; and again the wise guys refused. Now there's a whole bunch of revolutions down there, and the authorities are going to ask Uncle Sam's protection.

The search for the North Pole goes merrily on. Failure has come to all the pole-seekers of the past, but the strenuous and dangerous game continues. In France, the Duke of Orleans is making preparations for a polar expedition. In Norway, NANSSEN's sailing master, SVERDRUP, is said to making ready for another expedition Northward. In this country, PEARY is again active in the work of preparation. "When the North and South Poles are finally turned, the exhilarating, if dangerous, sport of exploration will of necessity become practically a lost art in the modern world," says The Times-Star. Not quite. Those who enjoy "exhilarating" and "dangerous" sport may then turn their attention to Breathitt county.

The Sewing Circle of Bethel Baptist Church and friends Friday tendered the Rev. E. A. White a farewell reception at the home of Mr. and Mrs. Silas Marshall in East Fourth street. About sixty-five attended during the hours of 4 to 7 p. m. Rev. White was presented with numerous gifts, the more valuable being a handsome gold watch chain from Scott's Chapel and a silver shaving-mug from the Sewing Circle. Addresses were made by Rev. P. T. Gorbam, Prof. C. W. Reynolds and Rev. White. The latter left Saturday for his new field of work in Ohio.

The Queen City will be the Pittsburgh boat tomorrow night.

The Sprague and O'Neil took into New Orleans jointly 1,376,000 bushels of coal.

Towboats are returning with empties as quickly as they deliver their coal to Southern markets.

Out of \$15,000 to pay for the trip of the Rivers and Harbors Committee of Congress, the Pittsburgh Chamber of Commerce decided that Pittsburgh would subscribe \$10,000.

The last towboats to leave Pittsburgh were Raymond Horner, twenty-eight barges; Tornado twelve barges; Charles Brown, twenty-two barges; Doaz, twenty-eight barges. This is a total of 1,250,000 bushels.

The Henry M. Stanley put off several hundred barrels of salt at the wharf yesterday morning on her down trip. She was loaded to the guards, besides having a good list of passengers.

The work on the repairs of the Virginia, which has been on the cradles of the Queen City Marine Ways, will be rushed from now on. She will be out in about ten days and then put in the Pittsburgh trade. After coming off the cradles there will be three boats a week going through to Pittsburgh, on Tuesday, Thursday and Saturday.

Serious disorders are reported from Transcaucasia as the result of uprisings of the peasants. Many of the land owners are said to be deserting their estates and taking refuge in the cities. Cossacks are being sent to the districts where trouble exists to aid in putting down the riots.

THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitutes on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators? August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

"Hooligan's Troubles," to be at the Opera-house tonight, is a funny farce comedy in three acts and is aptly termed a cyclone of fun, lasting two-and-one-half hours. Among the musical numbers that will be rendered are "Dancing Dolls," "Follow the Crowd," "Madie," "Let Me Sleep," "Coax Me," "It Wasn't Me," and many others. Seats now selling at Ray's.

Saturday as Mrs. Thomas A. Keith was passing across Market from the Postoffice to the West side of the street, she had a narrow escape from being run down by two reckless drivers in a buckwagon. The streets of the city are not intended for speedways and a good stiff fine would bring those gentlemen who think otherwise to a realization of the fact that pedestrians have some rights too.

While returning home from Church last night, Miss Lena Daulton, Miss Jessie Chisholm and Miss Rosser discovered that the C. and O. viaduct between Limestone and Bridge streets was in a blaze. Miss Rosser returned to the residence of Miss Katie Hnnt and phoned Mr. Wilcox who hastened men to the scene and finally extinguished the blaze. It is presumed the fire originated from a live coal falling from a fire box of a passing locomotive.

The Panama Canal

Some Interesting Facts Regarding the Great Work

J. J. Milroy, the eminent Civil Engineer of Washington City, says the idea of cutting a canal across the Isthmus dates as far back as the fifteenth century; in all, at least, twenty-five canal projects have been advanced.

In 1881 M. De Lesseps, at the head of a French company, commenced operations, figuring on constructing a sea-level canal, at an estimated cost of \$166,000,000, requiring eight years for its completion. From the sale of bonds, stocks and making assessments, the company received \$250,000,000, of which amount they expended \$154,000,000 on the Isthmus for excavations, machinery, surveys, etc. Each director drew a salary of \$50,000 a year and was allowed \$50 a day for expenses. Money was spent very lavishly, fancy prices prevailing for necessities as well as luxuries.

In 1891 the De Lesseps company failed, with less than two-fifths of the work done. A new company was soon organized with a paid-up capital of \$13,000,000. They obligated themselves to complete the canal and to pay 60% of the net receipts derived from tolls to the old stockholders until they were fully paid. They had a force varying from 500 to 2,000 men at work for the last ten years, but seemingly made but little progress, and finally, for a consideration of \$40,000,000, sold the United States all rights and title to the canal, including 98% of the shares of the capital stock of the Panama Railroad. The United States also paid to the Republic of Panama \$10,000,000 for a perpetual lease to a strip of land ten miles wide from ocean to ocean, known as the Canal Zone.

The total length of the canal will be forty-six miles, including two and a half miles sea reach on the Pacific side. Forty-three and a

half miles of this distance is composed of marshes, jungles and mountains, and for half this distance it is pierced by the Chagres river, which is probably the most unruly, uncontrollable stream in the world. No man has yet confined it to its banks; it has been known to rise forty feet in 24 hours. The controlling of this river will require the combined skill of the world's most eminent engineers. The present plans are to construct a dam of concrete masonry at a point about three miles up the river from where it will enter the canal. This dam will cover about 5,900 acres, and when full the water will be 163 feet deep. It will serve two purposes in addition to controlling the river: It will help to feed and furnish the motive power for operating the locks, as well as lighting the canal at night from ocean to ocean. Five years will be required to build this dam, and it will cost \$4,000,000.

Another dam, constructed of earth and masonry, will be built near Robio. The water in this dam will be backed up in the canal for a distance of sixteen miles, feeding the summit level, also reducing the fall of the Chagres, and forming a lake covering thirty-one square miles, where ships can pass or anchor. The cost of this dam will be about \$9,000,000.

There will be five double locks, each 738 feet long, with a lifting capacity varying from thirty-eight to ninety feet. The estimated cost of these five locks is \$25,000,000.

From Colon to Matabach, twenty-seven miles, the country is low, swampy and almost entirely covered with a thick jungle; in fact, an ax must be used to cut a pathway. The foliage is the long, broad tropical leaf through which a ray of sunshine never penetrates; the leaves fall and decay, layer upon layer, and the results are the creation of an intense miasmatic poison which during De Lesseps's reign caused the imported Negroes, West Indian laborers and Chinamen to die so rapidly that no attempt

was made to give them a decent burial. At the present time the health on the Isthmus is far better than it was at that time, but when digging commences on the gigantic scale necessary to complete the canal, the healthfulness will decrease in spite of all sanitary and hygienic precautions.

Between Panama and the Chagres river the country is hilly and mountainous. Considerable work was done here by the French company. At Culebra, the summit of the divide, for a distance of seven miles, the average depth of this cut will be 300 feet, and varying from 500 to 1,500 feet wide on top, and about 160 feet wide at the bottom. Strata of clay, soapstone, limestone and lava rock compose the formation of this cut. Massive sustaining walls of masonry will have to be built to prevent the sliding and caving in of the banks. It is fortunate that at this point where the heaviest work is to be done the healthfulness is the best.

The Panama Railroad was built by a New York company in 1857, at a cost of \$8,000,000. It is a common saying throughout Central America that the construction of this road cost a life for every tie beneath its rails. The railroad depends upon the ships, and the people upon the railroad. Railroading in Panama has some peculiarities of its own. The Conductors have a freight run one week and a passenger the next. The crews do not follow the same Conductor. The equipment of the Panama Railroad is old-fashioned but in excellent condition. The gauge is five feet, and but few of the cars are equipped with air brakes. The ties are made of lignum-vitae wood, which is so hard that a spike cannot be driven until a hole has been bored for it. Telegraph poles are made of old rails stood on end. All cabooses and baggage cars are equipped with telephones, so that a train can stop anywhere along the line and communicate with headquarters. Freight rates across the Isthmus are very high, the tariff on a fifty-pound sack of flour being thirty cents. Local rates are stiffer yet, the same charge being made for one mile as for the entire distance. First-class passenger fare is about nine cents a mile; second class, five cents. In addition to this passengers must pay three cents a pound on all baggage over thirty pounds carried in the hand. It costs the average passenger more to get his trunk across the Isthmus than to have himself transported.

The seasons of the Isthmus are two, wet and dry, the wet beginning about the 15th of April, and extending to the 15th of December. The amount of rain that falls has been given as 128 inches per annum. During this season the temperature rarely falls below ninety degrees, and the heat and humidity become unbearable. The dry season begins about the 15th of December and extends to the 15th of April. The weather and other conditions are much more favorable at this time.

Since acquiring the canal property, the United States Government has had a large force of men at work improving the sanitary conditions of the city of Panama, Colon and the principal points along the route of the canal. As soon as these conditions are more favorable, and sufficient houses have been erected to shelter the workmen, a force of from twelve to twenty thousand men will be put to work.

The city of Panama, a town of 17,000 inhabitants, is situated upon an elevated point of land jutting into Panama Bay. The town is irregularly laid out with narrow crooked streets, cobblestoned and filthy. The houses are Spanish in architecture.

There is no finer hospital on the globe than the one they have at Panama. It is on the side of Ancon Mountain, which used to be a volcano several centuries ago. This hospital is said to have cost \$5,000,000. At the foot of this mountain one can dig a hole two feet deep and come to a boiling spring. Engines are used for pumping this water to the hospital.

Colon, the Northwestern terminus of the canal, is built in a swamp, on made ground, and is populated by 5,000 people, seventy per cent. being Jamaica and other kind of Negroes. The property of the railroad and canal company is drained and sewered, and is situated on the water front. Everything about the company's property looks clean and well kept, but the rest of the town is filthy. The streets are macadamized and on a higher plane than the adjoining lots. In the wet season pools are formed under the houses and serve as breeding places for fever and frogs.

Neither Colon nor Panama has a first class harbor; the defect of Colon harbor is its exposure to strong Northerly winds, which, though rare, occur for periods of a few days every year, and while they prevail ships must go to sea for safety. The rise and fall of the tide is but twenty-six inches.

MOTHERHOOD

Actual Sterility in Women Is Very Rare—Healthy Mothers and Children Make Happy Homes.

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Woman's Association, of 614 Grove Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:— "I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I

Many Women Have Been Benefited by

try Lydia E. Pinkham's Vegetable Compound; this I did, and I improved steadily in health, and in less than two years a beautiful child came to bless our home. Now we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound."

Mrs. Mae P. Wharry, Secretary of the North Shore Oratorical Society, The Norman, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:— "I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within seven months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I owe Lydia E. Pinkham's Vegetable Compound for the light, health, and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period.

Women suffering with irregular or painful menstruation, leucorrhoea, displacement, ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of women's ills, and accept no substitute.

Mrs. Pinkham's Advice and Medicine.

All matter for publication must be handed in before 9 o'clock a. m.

Owing to the temporary disqualification by professional engagements of the United States Circuit Judge of Cleveland, O., the presiding Judge of District, Judge Lorton, has appointed Judge A. M. J. Cochran of this city to the place and assigned to him the trial of fifteen cases, which will come up the pending spring session of the Court.

DON'T EXPERIMENT.

You Will Make No Mistake If You Follow This Maysville Citizen's Advice.

Never neglect your health. If you are always tired or have a pain in the back, urinary disorders, dizzy or nervous spells, it's time to act. These are all symptoms of dangerous kidney troubles and you should use a remedy which is known to cure these troubles safely and surely. Doan's Kidney Pills is that remedy, and if you wish to be cured of kidney trouble without experimenting do not fail to use it. Others have been cured and cured permanently. Why not follow the advice of a Maysville citizen and be cured yourself?

George N. Crawford, blacksmith and wheelwright, at Second and Lee streets, and living at 216 East Lee street, Maysville, Ky., says: "In the spring of 1900 I gave a testimonial telling what Doan's Kidney Pills had done for me, and I am pleased to say I can just as warmly recommend this remedy now as I did then. No other medicine ever gave me such prompt and positive relief from backache and kidney trouble as Doan's Kidney Pills, procured at J. Jas. Wood & Son's Drugstore, and I believe them to be by far the best remedy for the kidneys there is. Sufferers from such troubles ought to give it a trial."

The indications are that Japan's terms for making peace will be by no means so liberal as Russia desires. Discussion of the question in Tokyo and among Japanese diplomats generally shows that a large claim for indemnity will undoubtedly be made when the formal negotiations with Russia are entered upon. The war party in St. Petersburg is actively engaged in spreading reports to the effect that the Emperor has not receded from his decision to continue the war. The general belief, however, is that Russia is indirectly seeking an opening for negotiations.

They still go at 30c and 25c; no money for me at that, but a snap for you. My stock of Green Coffee and Fine Tea is always full and up to date. And when it comes to flour, Perfection has no competitor. Every barrel guaranteed to be just as recommended. Try a package of Savon Wheat Flour, or a package of Dr. Price's Celery Food or Hominy Grits, all very fine. A full supply of Apples, Oranges, Peaches and Lemons at all times. A few barrels only of very fine Green County Sorghum left; price as long as they last 40c. Come right along and get the worth of your money in goods, new, fresh and clean and always the best.

Mr. Dan Cohen, Esq., Cincinnati, O.

Dear Sir—We are enclosing invoice for two carloads of shoes. Number of cars are Pere Marquette 305,113 and Big Four 24,687; weight of shoes 48,760 pounds. We shipped over L. and N. Railroad. Rate of freight 48c per hundred. All cases are numbered on end with stock numbers in large figures. We think you will have no trouble in checking up. There will probably be eight or nine hundred more cases to follow in two cars. Yours truly,

J. W. Carter & Co.

THE ABOVE LETTER IS SELF-EXPLANATORY. The purchase consists of over 37,000 pairs of Men's, Boys' and Little Men's high-grade Shoes and Oxfords, the most colossal deal ever consummated singly by any shoe firm West of New York City. In consideration of spot cash, this deal went through at a fraction of the cost of the raw material. See our "ad" in the next issue of this paper. The greatest and most profitable shoe sale in Western shoe history will be announced.

THE MAYSVILLE STORE WILL GET ITS SHARE OF THIS PURCHASE.
